HANDICAPPING SELECTIONS & STRATEGIES

- 5 - Queen Fantabulous - Sharp off a win and steps up vs winners, an equivalent to a Nw of 2.
- Competitive DELTA for Amaya from GPW, where a lot of winners are coming from in these races
- 1 - Intactus - DELTA, class relief. Could be sent to the front in from the rail. Delgado is only 1 for 24 slow meet for usually reliable barn.
- 2 - Simuladora - Second race since the five month layoff. Meneses starting to warm up.
- 4 - Two Timing Girl - Returns from sixth month break, Pilotti is strong off the break.
- Suggested .50 cent P5: 1,2,4,5 || 7,8,9 || 3,5 || 1,4,6,7 || MTO9, MTO11, MTO12 or 5,8

HANDICAPPING SELECTIONS & STRATEGIES

- It has been raining all Tuesday and should be raining through the night. Some races may come off turf.
- KEY8 - Appa - barn has been firing at meet and gets red hot Luis Saez who is getting the pick of the mounts.
- KEY7 - All I Karabout - Second against conditioned claimers at Laurel. Big positive switch with riders. Connections strong. Placed at the right level with 4-STAR-WORKS making great appearance in the AM.
- 9 - On Cruise Control - Low DELTA, but its hard to improve from Calabrese, and he thought this one was a \$8K horse.
- 5 - Animal Trick - Second against open company on the grass at Meadowlands. Positive rider switch returns from 45 day break.
- 3 - Performance Bonus - Drops in class, third against tougher at Belmont. Continues to burn money.

HANDICAPPING SELECTIONS & STRATEGIES
4 - Mr. Navas - Strong connections, third in debut and drops here. Strong rider switch and Zerpa fires at high %
6 - Catch All - Casse drops \$20K stud fee colt by Oxbow. Throw out last vs good maiden field. Fits here.
1 - Troopingthecolor - Been catching our eye in the mornings over at Palm Meadows with some 4 STAR WORK s.
7 - Lngtermrelationship - debut was good and was claimed for a hefty \$50K from owner/trainer. Trained OK since.

HANDICAPPING SELECTIONS & STRATEGIES
MTO11 - Eight Minute Ellie - Trained strongly for Romans and especially LIVE if race comes off the turf.
MTO9 - South of the Shore - With rain in the forecast, Brown trainee might be drawing in. Second against similar, should be tough on dirt.
MTO12 - C. S. Incharge - Third against similar last out. Showed speed on fast wet track last out at Churchill. Repeat performance if filly gets in will make her tougher.
5 - Sweet Sting - My top play on the turf course. 4-STAR-WORK. Jerkens has some live ones here.
8 - Glitz - Training sharply and barn is firing with four wins in first 12 starts. Castellano is a major upgrade on the new jockey angle. 4-STAR-WORK says this one is ready on the turf.
2 - Saucy Dame - Can improve for good barn. Jose Ortiz gets on board. Fits on the turf here.
1 - Kathy's Clown - Low DELTA, tough to endorse if race comes off the turf after being distanced on sloppy track.

HANDICAPPING SELECTIONS & STRATEGIES

4 - Liza Star - From optional claimer to N3L claimers. Low DELTA, has won on an off-track.
 6 - Sarahthequeenbee - Second against tougher two back. N3L claimers is lowest level since defeating N2L. Does well on sloppy tracks.
 1 - Creative Talent - Navarro drops to lowest level since N2L claiming win. Different horse when the track is sloppy.
 3 - Untrue - Kassen is strong trainer in these parts. Zayas stays on. Second when on off-track recently in January 2017.

HANDICAPPING SELECTIONS & STRATEGIES

KEY6 - Locomotion - missed the break last out, made a couple of runs and just missed for Mott. This one can run FQLLQW
 4 - He Takes Charge - Second in return from layoff, strong connections. Could fire with low DELTA.
 3 - Slot - We thought this one was a big dummy at Saratoga last summer. Seems to have some talent but at a short price and most likely would run on the main if it comes off as Pletcher surely entered for that purpose.
 4 - Master Manipulator - Jose Ortiz takes the call for Guillot. Trained OK and has experience.
 5 - Rare Form - Positive rider switch to Saez. Romans hasn't really cranked out his stock, two good works for this one, but may be limited.

HANDICAPPING SELECTIONS & STRATEGIES

MTO8 - Solfatara - Three straight wins with two sloppy track wins. Low DELTA in the field. Tough if mare draws in.

MTO10 - Flora Fantasy ~ Strong DELTA if races comes off the turf.

5 - O K Kay ~ Jose Ortiz takes the call for barn that is very live at this meet, and these kinds of events. Fits here on turf DELTAwise.

6 - Specialcnsydration ~ Like to follow the Tharrenos barn. Billy does very well with limited opportunities

2 - Two Step Blues - Second against similar last out. Ran second last time on the slop which moves him up.

7 - Admiral's Win - Third against similar most recently. Defeated conditioned claimers two back on a sloppy surface.

HANDICAPPING SELECTIONS & STRATEGIES

KEY10 - Monterey Marianne ~ We loved 14th of December gate work and gets Jose Ortiz. Would love to see come off turf as she can win on either surface.

4 - Elasticity - Second career start for sharp trainer. Takes class drop and gets Gaffalione. This one trains at offsite training facility as Florida as many of those in the states. Barn has had a ton of success lately.

8 - Mckenzie Capri - Good DELTA for this and Luis Saez in the saddle, just missed last out. 0 for 11, however

3 - Run Blondie Run - Beginning to wonder if filly wants to win. Lowest level of career for Mott/Zayat/Velazquez combination.

6 - Jeremiah Jewel - Takes a drop after returning from two month break. Should show improvement if track is still wet.

Gulfstream Park Track Information:

Main: 1 1/8 miles with 7 furlong and 1 1/4 chutes

Turf: 1 mile with 1 1/8 diagonal chute

Stretch: 898 feet

Workouts: For those who want exclusive information, the Racingwithbruno team shakes the bushes at dawn to provide clients with independent, qualitative observations of works at primary tracks where we have boots on the ground. Anyone can access the date, distance, time, and where the time of a particular work falls in relation to others at that distance on that day—our workout analysis is based on years of observations and experience and is the kind of information you won't get anywhere else.

DELTA Figures: DELTA, the fourth letter in the Greek Alphabet and the name of our figure that combines the four handicapping factors that can lead to a winning performance. Three years in the making, the DELTA Figures are a combination figure that controls for the conditions of today's race. The lower the number the better chance for success in the field. DELTA Figs are the latest handicapping tool from Racingwithbruno.

DELTA Fig Key

DELTA followed by 'd' is computed off dirt race when no turf race available

DELTA followed by 't' is computed off turf race when no dirt race available

DELTA in parenthesis, '()' is computed off race more than 90 days

NEW FEATURE: Workmates in the workout report will now be BOLD and ALL CAPS, plus their latest Delta will be added:

Roco Rojo (22Δ) working on the turf with Waki Island (26Δ) finished in.....

As you read report you will be able to see the class level or current form ability of the ability. Additionally, you can click on the horse name and you will be what we have for the workmate over that time period. Another great feature with your BrunoWiththeWorks

Workout Rankings: Racingwithbruno developed a system for ranking workouts and tested it at the windows, honing the formula through months of trial

and error. In the beginning, the rankings were constructed by hand. It was time consuming. Once we developed an algorithm it became a product we could offer to our clients and allowed us to produce rankings for any track across the country. Our rankings rate works on a scale of horses relative to others in their peer group. We don't just look at time, we look at maidens working with maidens versus maidens working with more esteemed company, etc. I'm not going to give our system away, but the rankings reliably indicate how a horse has been working in relation to its peers at a particular facility.

KEY = good chance to win **LQKQ** = very live **EXOTIC KEY** = to use in Exactas, Tri's & Super's All Races Selections/Analysis is designed to help the player make his or her decision at the window. Selections are not made to be followed blindly but to be a suggestion to supplement the players handicapping. Racingwithbruno strongly recommends for players to handicap and use Racingwithbruno suggestions to assist in wagering decisions.

Gulfstream Park Track Information:

Main: 1 1/8 miles with 7 furlong and 1 1/4 chutes

Turf: 1 mile with 1 1/8 diagonal chute

Stretch: 898 feet

Workouts: For those who want exclusive information, the Racingwithbruno team shakes the bushes at dawn to provide clients with independent, qualitative

observations of works at primary tracks where we have boots on the ground. Anyone can access the date, distance, time, and where the time of a particular work falls in relation to others at that distance on that day—our workout analysis is based on years of observations and experience and is the kind of information you won't get anywhere else.

DELTA Figures: DELTA, the fourth letter in the Greek Alphabet and the name of our figure that combines the four handicapping factors that can lead to a winning performance. Three years in the making, the DELTA Figures are a combination figure that controls for the conditions of today's race. The lower the number the better chance for success in the field. DELTA Figs are the latest handicapping tool from Racingwithbruno.

DELTA Fig Key

DELTA followed by 'd' is computed off dirt race when no turf race available

DELTA followed by 't' is computed off turf race when no dirt race available

DELTA in parenthesis, '()' is computed off race more than 90 days

NEW FEATURE: Workmates in the workout report will now be BOLD and ALL CAPS, plus their latest Delta will be added:

Roco Rojo (22Δ) working on the turf with Waki Island (26Δ) finished in.....

As you read report you will be able to see the class level or current form ability of the ability. Additionally, you can click on the horse name and you will be what we have for the workmate over that time period. Another great feature with your BrunoWiththeWorks

Workout Rankings: Racingwithbruno developed a system for ranking workouts and tested it at the windows, honing the formula through months of trial and error. In the beginning, the rankings were constructed by hand. It was time consuming. Once we developed an algorithm it became a product we could offer to our clients and allowed us to produce rankings for any track across the country. Our rankings rate works on a scale of horses relative to others in their peer group. We don't just look at time, we look at maidens working with maidens versus maidens working with more esteemed company, etc. I'm not going to give our system away, but the rankings reliably indicate how a horse has been working in relation to its peers at a particular facility.
