HANDICAPPING SELECTIONS & STRATEGIES

5 - Jendas Agenda - High profile connections, filly was perfect until getting beat in February. Fired off 4 STAR WORK over Fairgrounds surface.
 6 - Taxable - Winchell/Asmussen with main rider in return to the races. Mare has win over track, hard to ignore connections.
 2 - Torrent - Interesting that Cohen chooses to ride for Moquett with Diodoro having an entry. Filly been facing some strong stakes types and this is a class drop.
 4 - High Fashion Diva - Diodoro first off the claim is good angle. Cabrera gets opportunity for high percentage trainer.

HANDICAPPING SELECTIONS & STRATEGIES

13AE - Allidoisdreamofyou - Low DELTA in the field. Takes step up in class based on conditions. If draws in gets two pluses, Cabrera and outside post.
 6 - Preacher Time - Been short in last two races not having anything left late. Stretches out for low percentage barn. Stevens will need to massage speed.
 2 - Waco Bodene - Stalking pace, ability to have turn of foot around turn is important at his track. Pompell has good ROI.
 5 - Texas Jambalaya - Third against lesser last out, huge late run in most recent.
 10 - Love That Lute - Class drop, have to respect streak that Van Berg is currently on. Owners tried to get colt on Derby Trail last year.

- 7 - Black Bear - Hartman not using main guy in this spot. Second time after the claim and barn takes the blinkers off.
- 8 - Running Back - Cohen/Diodoro are strong duo, takes class drop off lack luster two starts over this track. Eligible to improve with class drop.
- 2 - Constantino - Class drop, Paco doing well in New York, gets opportunity for strong Canadian barn.

HANDICAPPING SELECTIONS & STRATEGIES

- 2 - Twist Off - Saez is red-hot at Gulfstream this year. Cox red-hot at Oaklawn. Connections will lower odds against this group.
- 4 - Ego Trip - Second career start, connections deserve respect. Barn does well with second time starters.
- 9 - The Money Dance - DELTA is best in this spot. Third against similar, nobody was getting to winner last out.
- 5 - Applewood - Improved in each start since returning from two month break. Trouble start could have hindered his chances last out.

- 10 - Sword Fighter - Might give Sutton Impact company on the front end. Miller not lighting it up at this meet.

HANDICAPPING SELECTIONS & STRATEGIES

9 - Mitole - Low DELTA, colt is just fast early. Was pressed on the pace last out and being on the front on a sloppy track here isn't where you need to be. Could get better trip in this spot.
 11 - Kates Golden Dude - Tougher spot off most recent efforts over at Delta. Could stalk pace setters and make run from the outside.
 10 - Infinity Squared - Gelding unlucky to lose last race on the slop as he just plain ran out of room. Cohen is barn's go-to jockey, Diodoro adds blinkers.
 1 - Beautiful Game - Asmussen's second entry here, cuts back in distance. Best races have been sprinting.

HANDICAPPING SELECTIONS & STRATEGIES

4 - Untrapped - Colt has some who's who of three-year old season with Battle of Midway, Irap, and Colonel'sdarktemper all in his running lines.
 5 - Dazzling Gem - 5th Season was a complete wash and throw out. Ran well against classified allowance types last out. Continues to improve.
 7 - Leofric - Second last out in G3, Saez comeback to ride. Big target is obviously Oaklawn Park Handicap in April. Still good spot to get first stakes win.
 6 - Rocking The Boat - Ran well dictating pace in Razorback. Offers value with pace scenario benefitting colt.
 2 - Hedge Fund - Colt looks good in the mornings over at Palm Beach Downs. Ran well in return, seems to be a bit below in terms of talent with the best in the country.

HANDICAPPING SELECTIONS & STRATEGIES

7 - Martini Glass - Paco believes in this mare as he comes in from NYRA to ride. Impressive win in Royal Delta last out and could get first run on others that come from off the pace.

8 - Blue Prize - Monster run in Fall City Handicap in November. Mare has shown she is real deal, might need race but Correas has managed her well.

1 - Actress - Just missed over at Sam Houston last out, chased couple of nice fillies in Elate and It Tiz Well.

Working well in the mornings in Florida for Servis.

3 - Terra Promessa - Had lead late and gave it up to Streamline. Get a price here with others having bigger credentials but its third race off the layoff and could offer value underneath.

HANDICAPPING SELECTIONS & STRATEGIES

7 - Sporting Chance - Needed the effort off the layoff in the Southwest. He pressed pace and got tired. His mare Wynning Ride by Candy Ride was a graded stakes performer for Baffert. She was also third in the Coaching Club At Belmont. He can route. He worked a mile for Lukas, which tells me he is sound enough for Lukas working him that far and that he needed the work. Last time i saw Lukas work a 3yo a mile it was in the 2013 Kentucky Derby with Will Take Charge. 'Charge was so ready for that race but in the stretch rallying inside of Orb he was eliminated by a drifting Verrazano. The mile work on 3/5 followed up sharp half mile tells me he is ready for 'Coach.

3 - Solomini - BC Runner to Good Magic. He is much better horse when being chased and doesn't like being hooked and in a dogfight. I call it the 'Firing Line' syndrome, as they become unglued when having to be work harder than other horse, hence comes the lugging in and drifting. He will be in the mix at a very short price. He needs to be handle the pressure late.

4 - Magnum Moon - He has a complete powder puff win beating stablemate Hyndford, who is not very good. The Tampa effort was more fluff. His maiden win was at Gulf but what Pletcher wins ugly at Gulf. he looks talented and remember him at Saratoga as he was being treated as a special project. He has some quirks we haven't seen yet and this is a tough field. However, it's Pletcher.

5 - Higher Power - Like this guy and he should give a good account of himself. His last win was eye catching. He had trouble in the first turn, overcame traffic and looked to have something left. He is an up and comer and worth following especially in the exotics.

8 - High North - his Risen Star effort was puzzling, he was up close, maybe too close, and down inside, but when it came to running he was empty. His effort in the Jockey Club at Churchill Downs was good. He was eliminated early when horse lost rider and Lanerie was riding very cautiously early. He finished up strongly late making up a lot of ground in the stretch. Another worth following up in the exotics.

Workouts: For those who want exclusive information, the Racingwithbruno team shakes the bushes at dawn to provide clients with independent, qualitative observations of works at primary tracks where we have boots on the ground. Anyone can access the date, distance, time, and where the time of a particular work falls in relation to others at that distance on that day—our workout analysis is based on years of observations and experience and is the kind of information you won't get anywhere else.

DELTA Figures: DELTA, the fourth letter in the Greek Alphabet and the name of our figure that combines the four handicapping factors that can lead to a winning performance. Three years in the making, the DELTA Figures are a combination figure that controls for the conditions of today's race. The lower the number the better chance for success in the field. DELTA Figs are the latest handicapping tool from Racingwithbruno.

DELTA Fig Key

DELTA followed by 'd' is computed off dirt race when no turf race available

DELTA followed by 't' is computed off turf race when no dirt race available

DELTA in parenthesis, '(')' is computed off race more than 90 days

Workout Rankings: Racingwithbruno developed a system for ranking workouts and tested it at the windows, honing the formula through months of trial and error. In the beginning, the rankings were constructed by hand. It was time consuming. Once we developed an algorithm it became a product we could offer to our clients and allowed us to produce rankings for any track across the country. Our rankings rate works on a scale of horses relative to others in their peer group. We don't just look at time, we look at maidens working with maidens versus maidens working with more esteemed company, etc. I'm not going to give our system away, but the rankings reliably indicate how a horse has been working in relation to its peers at a particular facility.

He loves and would rather be chased.

Solomini moved closer at 1/4 pole but took almost 16th of a mile to flip leads. Solomini never went by Hope and was under pressue to finish after splits of 59.3-111.2 while traveling out to the 7f pole. Hope was best here and didn't like Solomini having to be prodded to switch leads, and used to just keep up with mate. His tendencies to be in a crisis down the lane pushes me off the belief he will go 10f.

Workouts: For those who want exclusive information, the Racingwithbruno team shakes the bushes at dawn to provide clients with independent, qualitative observations of works at primary tracks where we have boots on the ground. Anyone can access the date, distance, time, and where the time of a particular work falls in relation to others at that distance on that day—our workout analysis is based on years of observations and experience and is the kind of information you won't get anywhere else.

DELTA Figures: DELTA, the fourth letter in the Greek Alphabet and the name of our figure that combines the four handicapping factors that can lead to a winning performance. Three years in the making, the DELTA Figures are a combination figure that controls for the conditions of today's race. The lower the number the better chance for success in the field. DELTA Figs are the latest handicapping tool from Racingwithbruno.

DELTA Fig Key

DELTA followed by 'd' is computed off dirt race when no turf race available

DELTA followed by 't' is computed off turf race when no dirt race available

DELTA in parenthesis, '(') is computed off race more than 90 days

Workout Rankings: Racingwithbruno developed a system for ranking workouts and tested it at the windows, honing the formula through months of trial and error. In the beginning, the rankings were constructed by hand. It was time consuming. Once we developed an algorithm it became a product we could offer to our clients and allowed us to produce rankings for any track across the country. Our rankings rate works on a scale of horses relative to others in their peer group. We don't just look at time, we look at maidens working with maidens versus maidens working with more esteemed company, etc. I'm not going to give our system away, but the rankings reliably indicate how a horse has been working in relation to its peers at a particular facility.
