### HANDICAPPING SELECTIONS & STRATEGIES

5 - Normandy Crossing - Wire to wire win against similar last out. Will dictate pace again int his spot. Could come right back in this spot.  
 3 - Sharm - Was part of merry-go round race last out. Has running style to stay within striking distance if top selection falters.  
 7 - Gladtohehere - Exits same race as top-two selections. Eligible to continue improvement in third race off the break.  
 1/1A - Jingle Me This/ Ingadore - Jingle hangs in the stretch and doesn't finish. Good for underneath. Ingadore just couldn't get to winner last out and drops in class.

### HANDICAPPING SELECTIONS & STRATEGIES

8 - Batterbatterswing - Low DELTA, strong debut run. Expect improvement.  
 9 - Iggyda - Colebrook has been cold since mid-January here. This is a class drop off races at Tampa.  
 5 - French Curve - Barn doing well at this meet. Gets one of the top riders of the meet. Eligible to take to synthetic as Tiznow ran well on all-weather surface.  
 7 He Be Keener - Anderson debut runner, Bodemeister is turning out to be a nice sire. Could fire at first asking.

#### HANDICAPPING SELECTIONS & STRATEGIES

- 3 - Fighting for Grace - Positive that colt is getting class rise. Low DELTA.
- 4 - Family Kitten - Strong connections, takes class drop.
- 6 - Get Tough - Barn does well going a route of ground for the first time, second career start is good angle for barn.
- 10 - Courage And Honor - Gilligan rides some for McPeek in Kentucky. Second career start, first time at a route and new barn.

#### HANDICAPPING SELECTIONS & STRATEGIES

- 2 - Bemus Point - Gets softer company after facing tougher over at Churchill. With inside post could dictate pace.
- EXOTIC KEY6 - Mia Valentina - We liked this filly back in April and May. Enjoys this track and step up in class isn't a big jump for filly.
- 5 - Shezappealing - Rider switch, barn done well in limited starts here. Could improve on the drop in class.
- 7 - True Boots - Van Dyke along for the ride to get to know surface for main event. Returns off four month break and barn usually doesn't have them cranked up.

#### HANDICAPPING SELECTIONS & STRATEGIES

9 - True Dream - Facing softer company in return to the races. Third against similar at Ellis Park two back before layoff.  
 3 - Ad In - Second race since October, first time on synthetic. Street Cry's do well on all-weather surface.  
 5 - Final Reward - ITM in three straight over this surface. Could offer value with rider switch.  
 11 - Necessary - Second against similar two back with Lebron. Positive rider switch to Gaffalione who is holding his own at Gulfstream Park.

#### HANDICAPPING SELECTIONS & STRATEGIES

LQK 8 - Sky Flower - This filly has been on our radar since April of last year. She is nearly automatic on synthetic. No issues with distance limitations as well.  
 4 - Proud And Fearless - Jones tries synthetic with filly in this spot. Does have some back class and Murrill comes in from Fairgrounds to ride.  
 2 - Bombshell - Jerkens does well off the short layoff. Distance isn't an issue for mare.  
 12 - Julurette - Mare offers value in this spot. Jimenez comes in from Florida to ride stakes races. Will be sent for the start.

#### HANDICAPPING SELECTIONS & STRATEGIES

9 - Honorable Treasure - McPeek has thought highly of colt as a two-year old season. Doesn't get an easy spot for 2018 debut.  
 11 - Believe in Royalty - Colt fired off 4 STAR WORK on March 2nd. Much softer spot here for Jones trainee.  
 7 - Alternative Route - Stall thinks highly enough of Spendthrift owned colt to face tougher company. Murrill got to know off most recent. Might enjoy switch to all-weather.  
 5 - Year of the Kitten - Kitten's Joy do well on synthetic, owner/trainer have a tendency to dominate at this track.

#### HANDICAPPING SELECTIONS & STRATEGIES

9 - Camelot Kitten - Turf to synthetic switch. Could improve on the surface change.  
 7 - Chip Leader - Barn change since last out. Will be sent when gates open. Been beating some hard-knocking high level claimers.  
 3 - Senior Investment - Throw out most recent effort over slop. McPeek had this one on the Triple Crown trail.  
 4 - Royal Son - Won two straight over this surface while improving. Gets a stiffer test here as others have shown ability to tangle with some Graded company.

#### HANDICAPPING SELECTIONS & STRATEGIES

10 - Bet She Wins - Block does well in the midwest, filly was highly thought of by barn last year. Ran well over Arlington Park synthetic.  
 8 - Mo Flash - Casse does well in Kentucky, filly is still eligible for N2L but could get overlooked in this spot.  
 11 Go Noni Go - Tried tougher on turf last out. Makes the switch to synthetic which isn't a big ask. Usually horses who thrive on turf make easy switch to all-weather.  
 4 - Child's Play - First time off the claim for sharp trainer on the upper mid-Atlantic. Brooks can get them home at a big price and filly has shown talent.

#### HANDICAPPING SELECTIONS & STRATEGIES

10 - Zanesville - Low DELTA in the field. Did well over Delta Downs surface, Tiznow does well with synthetic.  
 3 - Archaggelos - Sharp trainer, Hernandez does well with colt. Defeated nice stakes horses at Woodbine.  
 7 - Hazit - Van Dyke looking for another Derby mount, Hazit tried to dictate pace in return to the races. Second time off the layoff.

#### HANDICAPPING SELECTIONS & STRATEGIES

- 4 - Maniacal - Ward does well at this track. Went wire to wire against N3L allowance types. This is a bit tougher spot.
- 5 - Hollywood Talent - Hammond places horses well, defeated similar last out going wire to wire. Tried stakes company two back but was overmatched.
- 7 - Dark Arden - Saez is here and doesn't climb on board. Kennedy having a tough meet. Takes class drop after facing tougher over at Fairgrounds.
- 2 - Irish Proud - Huffman is having fabulous meet winning nearly at 40%. Takes step up in class, offers value.

#### HANDICAPPING SELECTIONS & STRATEGIES

- 4 - Tempestuous Amy - Firing off 4 STAR WORK for high percentage barn. The old-timer still can ride and get value in this spot.
- 5 - Church - Drury does well with debut runners, working well for first time start. Franklin having a strong meet.
- 12 - Altar Issues - Three Diamonds/ Maker are strong owner/trainer combo. Gaffalione trying to close on the nightcap.
- 14 - Lous Chardonnay - Needs to draw in to give us value underneath. Might enjoy synthetic surface.

**Workouts:** For those who want exclusive information, the Racingwithbruno team shakes the bushes at dawn to provide clients with independent, qualitative observations of works at primary tracks where we have boots on the ground. Anyone can access the date, distance, time, and where the time of a particular work falls in relation to others at that distance on that day—our workout analysis is based on years of observations and experience and is the kind of information you won't get anywhere else.

**DELTA Figures:** DELTA, the fourth letter in the Greek Alphabet and the name of our figure that combines the four handicapping factors that can lead to a winning performance. Three years in the making, the DELTA Figures are a combination figure that controls for the conditions of today's race. The lower the number the better chance for success in the field. DELTA Figs are the latest handicapping tool from Racingwithbruno.

#### **DELTA Fig Key**

*DELTA* followed by 'd' is computed off dirt race when no turf race available

*DELTA* followed by 't' is computed off turf race when no dirt race available

*DELTA* in parenthesis, '(')' is computed off race more than 90 days

**Workout Rankings:** Racingwithbruno developed a system for ranking workouts and tested it at the windows, honing the formula through months of trial and error. In the beginning, the rankings were constructed by hand. It was time consuming. Once we developed an algorithm it became a product we could offer to our clients and allowed us to produce rankings for any track across the country. Our rankings rate works on a scale of horses relative to others in their peer group. We don't just look at time, we look at maidens working with maidens versus maidens working with more esteemed company, etc. I'm not going to give our system away, but the rankings reliably indicate how a horse has been working in relation to its peers at a particular facility.

**Workouts:** *For those who want exclusive information, the Racingwithbruno team shakes the bushes at dawn to provide clients with independent, qualitative observations of works at primary tracks where we have boots on the ground. Anyone can access the date, distance, time, and where the time of a particular work falls in relation to others at that distance on that day—our workout analysis is based on years of observations and experience and is the kind of information you won't get anywhere else.*

**DELTA Figures:** *DELTA, the fourth letter in the Greek Alphabet and the name of our figure that combines the four handicapping factors that can lead to a winning performance. Three years in the making, the DELTA Figures are a combination figure that controls for the conditions of today's race. The lower the number the better chance for success in the field. DELTA Figs are the latest handicapping tool from Racingwithbruno.*

#### **DELTA Fig Key**

*DELTA followed by 'd' is computed off dirt race when no turf race available*

*DELTA followed by 't' is computed off turf race when no dirt race available*

*DELTA in parenthesis, '( )' is computed off race more than 90 days*

**Workout Rankings:** *Racingwithbruno developed a system for ranking workouts and tested it at the windows, honing the formula through months of trial and error. In the beginning, the rankings were constructed by hand. It was time consuming. Once we developed an algorithm it became a product we could offer to our clients and allowed us to produce rankings for any track across the country. Our rankings rate works on a scale of horses relative to others in their peer group. We don't just look at time, we look at maidens working with maidens versus maidens working with more esteemed company, etc. I'm not going to give our system away, but the rankings reliably indicate how a horse has been working in relation to its peers at a particular facility.*
