2 - ANGEL PALM ((42)Δ) - Posted a big score two back at Belmont when getting to the front early, then failed to fire last time when being a bit more passive in the initial stages; expecting Manny to get more aggressive early and get her in her comfort zone once again. Post Position wins at least 15%. Second **Fastest Closing ZETA Fig** (FF2).
3 - PRINCESS FAWZIA ((39)Δ) - Even-keeled sort, has run decently enough in all three starts this year and now draws the cozy inside slot; will be a square price to use in all the underneath slots, at the very least. Post Position wins at least 15%. Second **Fastest Closing ZETA Fig** (FF2).

HANDICAPPING SELECTIONS & STRATEGIES
EXACTA; TRIFECTA (.50); SUPER (.10) WAGERS
4 - GINNSU WARRIOR ((47)Δ) - Wheeled back quickly and is getting off the fence this afternoon; will appreciate the softer spot as well. This horse is within 3 points of **TOP Three DELTA** figures in race. Has noteworthy WithTheWorks handicapping factors. Post Position wins at least 15%. Second best **Pace ZETA Fig** (F2). Third **Fastest Closing ZETA Fig** (FF3).
8 - ARTHURIAN ((49)Δ) - Blew the break and still graduated in style last time at Mountaineer; the runner-up came back to win and this gelding is properly spotted for his first local attempt. Post Position wins less than 10%. The **Fastest Closing ZETA Fig** (FF1).
11 - CATHEDRAL BEACH ((44)Δ) - Comes in here fresh and is plunging in class; drawn perfectly out in the clear and has prior form that makes him an obvious one to fear. **TOP Two DELTA** based on the best latest effort. **3-STAR-WORK RANKING OUR VERSION OF THE BULLET WORK** off the Work Rankings. Top **Pace ZETA Fig** (F1).
2 - HEADS OR TAILS ((47)Δ) - Exiting a good 3rd at Belmont vs similar, with trouble to boot; Castellano sticks and he's been riding as well as anyone to start this stand. This horse is within 3 points of **TOP Three DELTA** figures in race. Has noteworthy WithTheWorks handicapping factors. Second best **Pace ZETA Fig** (F2).
1A - CENTAVO ((48)Δ) - Has been consistently picking up minor shares at this level recently and now goes from Cardenas to Alvarado; will be a nice number to use in all the underneath slots, at the very least. Second **Fastest Closing ZETA Fig** (FF2).

Hot Horse = 🔥 Trainer / Jockey / Owner Performance = 🔥 Hot ❄️ Cold

The **ZETA** figure takes into account the best early pace figure from strictly the last two races on today's surface and coverts, in connection with the surface, the early pace Delta on the main track. The **Turf Zeta** figure is a last fraction derived from strictly the last two races on the turf and makes the number, as in the final time Delta fig and Zeta Early Pace fig, the lower the better. **Workouts:** For those who want exclusive information, the Racingwithbruno team provides clients with independent, qualitative observations of works at primary tracks.

Workouts: For those who want exclusive information, the Racingwithbruno team provides clients with independent, qualitative observations of works at primary tracks.
Workout Rankings: Racingwithbruno system for ranking workouts and tested it at the windows. Our rankings rate works on a scale of horses relative to others in their peer group. We don't just look at time, we look at maidens working with maidens versus maidens working with more esteemed company, etc. The rankings reliably indicate how a horse has been working in relation to its peers at a particular facility. **FONT COLOR="RED">THE RACINGWITHBRUNO BULLET WORK** is the two-year-old that is outworking his peers by time. We match up two-year-olds vs two-year-olds time-wise only at 4f or longer works. As the two-year-olds develop during their season, we tend to use 5f works and longer for our own brand of **Bullet Work**.

DELTA Figures: **DELTA**, the fourth letter in the Greek Alphabet and the name of our figure that combines four handicapping factors that can lead to a winning performance. Three years in the making, the **DELTA** Figures are a combination figure that controls for the conditions of today's race. The lower the number the better chance for success in the field.

DELTA Fig Key
DELTA followed by **â€dâ€** is computed off dirt race when no turf race is available
DELTA followed by **â€tâ€** is computed off turf race when no dirt race is available
DELTA in parenthesis, '()' is computed off a race more than 90 days prior

Jockey-Trainer-Owner Rankings for each individual circuit are NOW available on your Cheat/Delta Sheet. 4 stars - best, 3 - good, 2 - fair to average, 1 - poor

GoRhythm KEY:
GoRhythm is a Racingwithbruno algorithm that takes into account all of our featured handicapping assets. It assigns points and gives top 3 or 4 selections. It's a great quick synopsis of all the handicapping factors we apply.

The ZETA figure takes into account the best early pace figure from strictly the last two races on today's surface and coverts, in connection with the surface, the early pace Delta on the main track. The Turf Zeta figure is a last fraction derived from strictly the last two races on the turf and makes the number, as in the final

time Delta fig and Zeta Early Pace fig, the lower the better. Workouts: For those who want exclusive information, the Racingwithbruno team provides clients with independent, qualitative observations of works at primary tracks.

Workouts: For those who want exclusive information, the Racingwithbruno team provides clients with independent, qualitative observations of works at primary tracks.

Workout Rankings: Racingwithbruno system for ranking workouts and tested it at the windows. Our rankings rate works on a scale of horses relative to others in their peer group. We don't just look at time, we look at maidens working with maidens versus maidens working with more esteemed company, etc. The rankings reliably indicate how a horse has been working in relation to its peers at a particular facility. **THE RACINGWITHBRUNO BULLET WORK** is the two-year-old that is outworking his peers by time. We match up two-year-olds vs two-year-olds time-wise only at 4f or longer works. As the two-year-olds develop during their season, we tend to use 5f works and longer for our own brand of **Bullet Work**.

DELTA Figures: DELTA, the fourth letter in the Greek Alphabet and the name of our figure that combines four handicapping factors that can lead to a winning performance. Three years in the making, the DELTA Figures are a combination figure that controls for the conditions of today's race. The lower the number the better chance for success in the field.

DELTA Fig Key

DELTA followed by \hat{d} is computed off dirt race when no turf race is available

DELTA followed by \hat{t} is computed off turf race when no dirt race is available

DELTA in parenthesis, '()' is computed off a race more than 90 days prior

Jockey-Trainer-Owner Rankings for each individual circuit are NOW available on your Cheat/Delta Sheet. 4 stars - best, 3 - good, 2 - fair to average, 1 - poor

GoRhythm KEY:

GoRhythm is a Racingwithbruno algorithm that takes into account all of our featured handicapping assets. It assigns points and gives top 3 or 4 selections. It's a great quick synopsis of all the handicapping factors we apply.
